In addition nearly all the clerks at the both lower. state house have volunteered their services, and have worked at odd times. and until late at night addressing envelopes and sticking the stamps on them.

It is the first time in the history of Kansas politics that such a task has been undertaken or carried to comple-tion. Never before has the state committee of either party attempted to send direct to two-thirds of the voters in Kansas a personal letter. The state committee frequently send out two or three thousand letters at one time, but

0,000 is quite a different proposition. The plan for sending a direct appea voters of Kansas was suggested by J. C. Gafford, assistant secretary of the committee, who has used this method of compaigning with success in his own county. Chairman Dolley left the whole business of getting out the 200,-000 letters to Mr. Gafford.

Two kinds of letters were sent out, one kind to Democrats and one to Re-publicans. The letters were identical except that in the letter to Republicans there was a special appeal from Chairman Dolley that they should get out and work for the ticket.

Aside from this special appeal to Republican voters, each envelope contain-ed two circulars. One is a general summary of the campaign and remarks concerning the candidates. It also gives a

IGNORES THE FLEET.

Pekin Hardly Knows the Ships Are at Amoy.

Pekin, Oct. 31 .- The presence of the second squadron of the American bat-tleship fleet at Amoy, where the ves-sels arrived yesterday and where the men are now being entertained by the Chinese government, is hardly known in Pekin. The Chinese newspapers have said nothing at all about the visit, and the occurrence is being com-pletely ignored both officially and otherwise, so far as Pekin is concerned. This probably is because the festivities in connection with the birthday of the empress dowager are coincident with the entertainment of the visiting Americans. The Japan newspapers alone in Pekin have any information regarding the doings at Amoy. Up to 6 o'clock this evening the foreign board had no news of the arrival of the warships and was still awaiting their coming. Neither had awaiting their coming. Neither had the American learning received and to the growing desire for brothercerning the candidates. It also gives a letter from Chairman Dolley to the voters of the state, and pictures of Taft, Sherman, Stubbs and Bristow.

It then goes on to cite some effects of the law on prominent Democratic of the state.

Statistics are presented. up as soon as the checking of the books has been completed. There is in the vaults approximately \$173 million in gold coin; \$17 million in cur-roncy and \$80 million in silver coin and all of this must be counted and verified piece by piece. The money is in sealed bags and packages but the mark on each of these must be verified by the actual counting of the contents. The work will probably require at least a month. The counting is only done when an assistant treasurer leaves the office. Mr. Fish re-signed as assistant treasurer in order to accept a nomination for congress.

The Democratic party attempts to in-Democratic party attempts to in-augurate an era of honesty in politics by compelling the publication of cam-down into history as among the most paign contributions before the election, It seeks to bring the government nearer to the people by securing the election of United States senators by direct vote. It seeks to restore competithrough legislation which make a private monopoly impossible. It seeks to reconcile labor and capital by legislation which will bring employer and employe together in co-operation, and to this end it proposes the creation of a department of labor with a secretary of labor in the cabinet; an amendment to the anti-trust law, which will exclude the labor organization from the operation of that law; the limitation of the writ of injunction so that it will not be issued in a labor dispute unless conditions are such as would justify an injunction even if there were no labor disputes, and trial by jury in cases of indirect contempt. It seeks to secure legislation which will create a guarantee fund sufficient to insure all depositors against loss. It seeks to secure a reduction of the tariff by gradual steps until the tariff laws will no longer be made in the interest of the few and at the expense of the rest of the people.

With a Democratic victory for the national ticket, with a Democratic congress and with the moral force of a to promulgating the idea of an alli-ance with the United States.

Mutinous Outbreak Among Turkish Troops Is Suppressed.

Constantinople, Oct. 31.—A threat-ened outbreak on the part of a com-pany of Turkish troops attached to the garrison at Yildez Klosk was prompt-ily put down this morning with a single volley from a loyal battalion. Three of the mutineers were killed and 15

The mutinous spirit manifested itself when the company was assembled and threatened for a few moments to result in serious trouble. But a hurry order was issued and a bat-tallon from a regiment recently brought in from Salonika was march-

ed to the scene and one volley sufficed to cow the mutineers.

The rebellious troops were under orders to leave for the provinces, but they refused to depart, withdrew to a field near the barracks, and defied their officers.

their officers.

The battalion from Salonica, which was drafted into the capital, especially because the men are staunch suppor-ters of the constitution, was ordered to attack the rebels. They fired one vol ley, with the result above set forth, after which the mutineers surrendered and were made prisoners. Later they were drawn up on the public square, tied together and exhibited to the assembled troops as rebels who had broken their milltary oath. This prompt suppression is expected to have a salutary effect on the remainder of the Yildez Kiosk garrison, which is suspected of being antagonistic to the constitution.
